THE VOLVO 480 AWARDS

We received feedback last year that some 480 awards would be nice. So we are very pleased to announce we have created an international group of 480 experts who will be judging each of the following award categories:

IN PROGRESS

- **The oldest 480**
The date of first registration and the chassis (vehicle identification number) are the key factors in the category. Who owns a true classic vintage 480?
- **The newest 480**
Whose 480 was the last to roll off the assembly line in Born? The jury will look closely at the month and year of construction and the chassis number (vehicle identification number).
- **The best personalised 480**
Whether it's subtle, unusual, or flashy - everyone has their own personal taste, and that's absolutely fine. Which personalisation impressed the jury the most?
- **The best kept engine bay**
Only a few kilometers driven, or an engine compartment cared for with lots of love and ice blasting. The jury will take a look under the hood.
- **Fantastic condition**
A top condition original or a high-quality restoration. The jury will decide on the best condition 480.
- **A personal story: My 480 and I**
If your car has a special story for you, please share it with us. We look forward to hearing your feelings and emotions about your car. (Please send us your 480 story: event@volvo480.info)
- **The longest journey**
How many km / miles did you travel to the 2026 meeting with your 480?
- **480 Community - Honorary Award**
The jury will award an honorary prize to a special person who has made a great contribution to the 480 community.

LET'S HAVE DINNER TOGETHER

SATURDAY 23. MAY 2026

DINNER BUFFET (ALL YOU CAN EAT)

Location: Restaurant Krewelshof in Lohmar, approx. 30 min. drive from the racecourse.

Krewelshof Lohmar is surrounded by greenery and offers a varied regional farm kitchen and seasonal specialities. Many ingredients come directly from their own fields (e.g. asparagus, potatoes and strawberries). A large rustic barn and a terrace have been reserved for us (200-300 people!).

There is also a large car park.

Address: Krewelshof Lohmar, Krewelshof 1, 53797 Lohmar

Cost per person: € 35,- + drinks extra (to be paid on site)

Time: 18:00 till 21:00

Please Note: In order to determine the number of participants for the different days of the weekend more accurately, we will send another email to everyone a few weeks (in April) before our 480 meeting with an online form with a request for your personal requirements. We need to provide the restaurants with the number of people for our evening dinners to reserve the seats and plan the food.

GENERAL INFORMATION

Notes

The car tour is not an event requiring a license within the meaning of §29 StVO (Germany road traffic regulations), but merely a tourist recommendation. Compensation claims arising from the route planning or guidance can therefore not be asserted. Each participant is liable for themselves and their vehicle. This also applies if they follow the organiser. This is a tour with a recommended route.

All drivers are obliged to ensure that their own vehicle is roadworthy and complies with the applicable regulations.

Please make sure that your insurance is valid in Germany and the Netherlands.

Driving rules

When driving in a group of several cars, it is important to keep your distance to avoid rear-end collisions. It can always happen that ride groups are torn apart. Don't panic - we will always see that we gather together. If possible, we will wait to gather, or see each other at the next meeting point. Better too much distance than too little! We help each other within the group and do not overtake. We show consideration for other cars and always expect irrational reactions from other road users.

Pictures and Videos of the event

Photos and video recordings will be made at this event. These are used individually for social media, public relations work and are also for the permanent documentation of the international Volvo 480 meeting.

Some advice and tips for drivers from the UK and Ireland when travelling to Germany

- Insurance - be sure to advise your insurer of the dates that you are travelling. Most UK car insurance policies require this to ensure that suitable cover is in place. Typically, there will be an additional fee.
- Roadside assistance - the AA, RAC etc. can provide you with support via their partners elsewhere in Europe. European Breakdown Cover is available for both single trips and for an annual fee.
- Documents to take with you - passport, driving license, V5C, proof of vehicle insurance, travel insurance, your European Health Insurance card and UK stickers if you don't have a GB Euro number plate.
- Equipment - reflective jackets for each passenger to be kept in the car cabin (not the boot), a warning triangle and first aid kit.
- Consider buying a European car kit - available from Halfords, Amazon, the AA and RAC etc.
- Fix anti dazzle headlamp deflector stickers to your headlights

Some general tips and advice

- Stay alert - don't drive if you are tired. Driving a right hand drive car in Europe is not especially difficult BUT you do need to have your wits about you.
- Keep a close eye on speed limits
- Have some euro currency in the car including coins
- Read the AA and RAC website pages on driving in Europe.
- If you have not taken your 480 on a long run recently then it's not advisable to make the International Meeting it's first long trip of the year. Check the battery, tyre pressures and all of the fluids before ideally taking it out on a long run a few weeks before the meeting. That way, if there are any issues, you have plenty of time to sort them out well in advance!
